Please amend paragraph 0020 as follows:

**[0020]** Referring to Fig. 1, patterned article 10 has glass substrate 12 overcoated on a portion of its upper surface 13 with release polymer 14. Release polymer 14 forms a pattern (not shown in cross-section in Fig. 1) on upper surface 13 representing, for example, circuit traces, electrical connections, electrodes or the like. The upper surface 15 of release polymer 14 preferably has a lower surface energy than upper surface 13.
